Hi Jesse and Jennifer – attached is the updated draft of the VB-I70 CIP. If you want, we can send along the Word version but thought the pdf would help ensure that things don't shift around in a weird way.

We still need to make this 508 compliant, but wanted to see if you wanted to see any additional changes before we do that.

Here are a few notes for your consideration:

- For consistency, we used the spelling Elyria-Swansea. The previous draft used Elyria Swansea or Elyria and Swansea. Please let us know if you prefer something different.
- We added the Spanish translation of the Community Involvement Action Plan immediately after the English version and updated the Table of Contents to include the Spanish translation.
- In the Community Profiles section, we added language to reference the Hispanic community (previous version did not mention) and the National Western Stock Show (since we include the National Western Show CAG in a later section of the CIP). We also incorporated a sentence about historical assets so it doesn't read as solely negative. We added references as footnotes – most of which are state or city planning documents because Jennifer requested more "neutral" sources.
- In the Demographics table, we added a column for city of Denver because in her email, Jennifer requested more Census information.
- We changed the "Central 70 project and Interstate 70 overhaul" to "Central 70 Project."
- We need to confirm with Jennifer if there is anything else she would like to add to the OU1 section of the Site Description (see comment on PDF page 5).
- We need to clarify with Jesse if there is anything to add about the CAG in the Community Concerns section (see comment on PDF page 13) and about the fact sheets in community hubs (see comment on PDF page 16).

Please let us know if you would like to talk or have any additional feedback.

Sincerely,
Treat
